

## Setting Adobe to the default PDF Reader

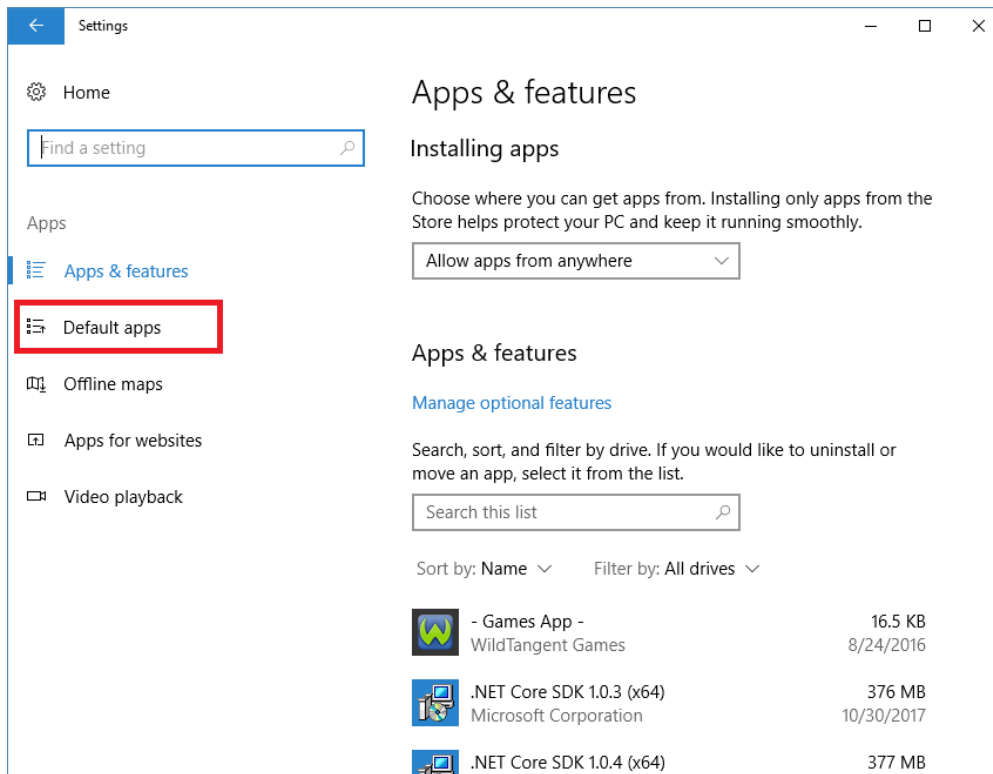

1. Open the settings from the windows menu. (The cogwheel/gear button)

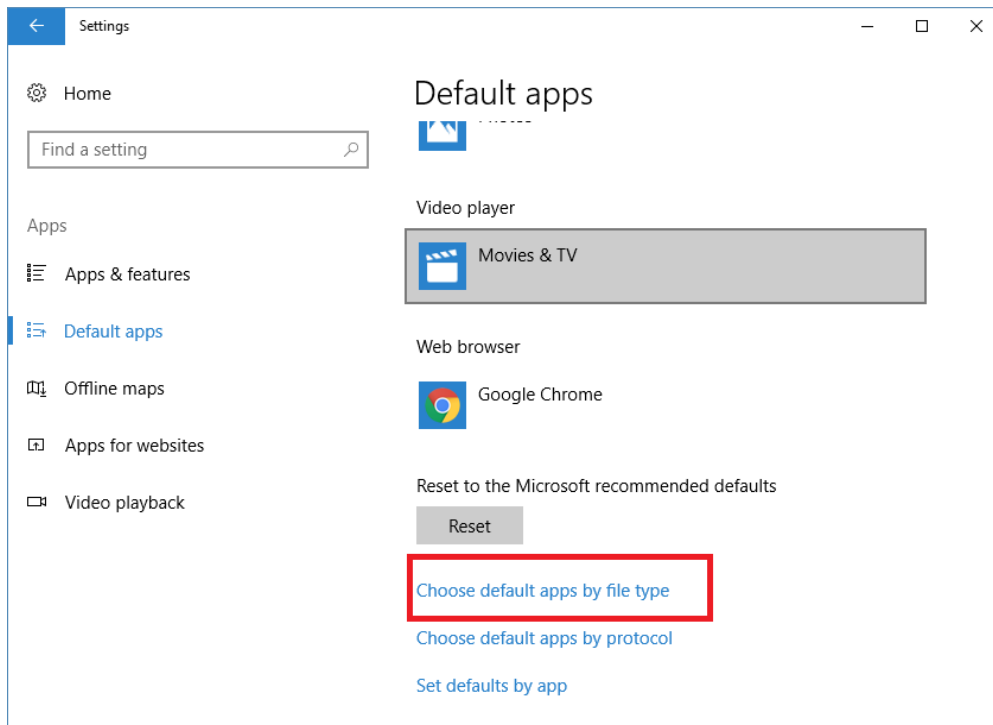

2. Select Apps

### 3. Select Default Apps in the sidebar

### 4. Scroll down and select "Choose Default apps by file type"

5. Scroll down to the .pdf section and select the currently selected program (Microsoft Edge will be the default for Windows 10.) Change the default to Adobe Reader.
